CATERING AT FRIENDS HOUSE

As a Quaker company, we are committed to being a sustainable business.

We recognise there is a climate emergency and are working towards being carbon neutral. We seek to minimise our impact on the environment and maximise our contribution to the communities in which we operate. Our strategic plan lays out a long-term vision for becoming a truly sustainable organisation. We want to lead by example and be the green venue of choice for our customers. We also support Britain Yearly Meeting, the charity of Quakers in Britain, by running its services sustainably and ethically.

To deliver this vision, we have identified key areas where we must address around energy, responsible procurement, communication and engagement.

Our catering menus are part and parcel of our sustainability ethos, and we intend to provide delicious food which will leave a long lasting memory but not a long lasting impact on our planet.

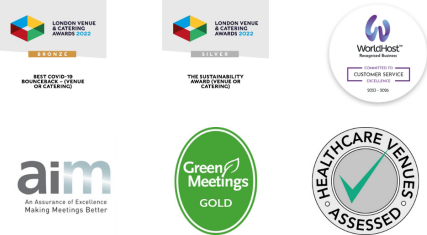

SUSTAINABLE & SAFE EVENTS GUARANTEED

Together with our catering partner
Hubbub, we are committed to providing
sustainable events.

You can expect the highest standards of
sustainability and covid-safety for your
events. Friends House is ECOsmart
Platinum and Green Meetings Gold
accredited, and is a founding member of
the Camden Climate Change Alliance.

The venue won the Silver Award for The
Sustainability Award and Bronze Award
for Best Covid-19 Bounce Back Award at
the London Venue and Catering Awards
in November 2022. The judges praised
our online Covid-19 Resource Centre
and our supportive customer service
practices during the pandemic.
